Choice

 MONROVIA®

Grow Beautifully

Elegant

First Love® Gardenia (Grafted)

Legendary for their deeply memorable fragrance and the unfurling of their large, white, double blooms, gardenias are as seductive and feminine as a certain sort of mother (in jeans or Chanel!). This one's blooms are larger and come on earlier, and because it's grafted, it's the perfect solution for less-than-perfect soils.

CARE: Thrives in organically rich, slightly acidic, well-drained soils. Handle with care when transplanting; gardenia roots are best undisturbed. Water deeply and regularly during the first growing season to establish an extensive root system. Feed with an acid fertilizer after bloom. Keep roots cool with a thick layer of mulch. Pruning time: summer after flowering.

YOU ARE A BEACON OF HOPE & LOVE
TO ALL WHO KNOW YOU.
